Two quotes on your desk.

Every gap identified, clause by clause, in one table.

Compare these two proposals in a table: first-year cost, exclusions, payment terms, annual uplift, minimum term, notice period, exit costs, liability cap. Quote the clause for each. Where one is silent, write not stated.

Attach both proposals, as they were sent to you. Not your summary of them.

What comes back.

Four cells say not stated. Those are your four questions to the supplier before you sign.
