Notes

Word

Friday, 4pm. The client update in 200 words, with what you need from them.

Write this week's update for [client] from the attached notes. Three headings: What moved. What is blocked. What we need from you. Then one line on next week. Under 200 words. Keep every number exactly; where the notes are unclear, write [CHECK].

Attach your notes from the week, in whatever state they are in. Bullet fragments are fine.

What comes back.

Every number is from your notes. Where the notes were unclear it wrote CHECK instead of guessing.

WHAT MOVED

WHAT IS BLOCKED

WHAT WE NEED FROM YOU

NEXT WEEK
