A paper going to the board. The eight questions you will be asked, before the meeting.

Act as a sceptical non-executive with a finance background. List the eight questions you would ask, in order, each with the paragraph it comes from. Then find any claim without a number, any risk without a mitigation, and any recommendation whose cost is not stated.

Attach the paper as it will be sent, appendices included.

What comes back.

Eight questions, hardest first, each tied to the paragraph it comes from.

-
- 1** What does the £240k saving assume about headcount?
Paragraph 3

 - 2** Why is there no mitigation for supplier failure in the risk table?
Paragraph 7

 - 3** What does option B cost? It is recommended without a figure.
Paragraph 9

 - 4** Who owns delivery after month three?
Paragraph 5

 - 5** What happens to the current contract if we choose this?
Paragraph 4

 - 6** Which of the three benefits has a number behind it?
Paragraph 6

 - 7** What did the pilot measure, and against what baseline?
Paragraph 2

 - 8** What would make us stop?
