

AFTER THE CONVERSATION

The forty seconds that decide whether you still know them on Friday

Six things to do before you talk to anyone else. A pen works.

Viren Samani

Founder, Convu and AI for Companies

Swipe

ONE

Their name and one thing they said

TWO

What they asked you for

THREE

What you promised

FOUR

**One line about them
for the next person**

FIVE

The follow-up in the calendar, now

SIX

Send it the same night

THAT IS THE WHOLE SYSTEM

A pen works. Convu does it from a voice note.

Thirty seconds walking to the station, said out loud, becomes the six lines, filed, with the reminder set.
